Attention: Ms. Nhung Nguyen

Dear Ms. Nhung Nguyen,

The Ministry of Natural Resources (MNR) has reviewed the Turbine model amendments correspondence for Ernestown Windpark Inc.'s, Ernestown Wind Park, dated June 3, 2013. Based on our review and understanding, the aforementioned project is located Lot 27, Concession 2, Loyalist Township.

Based on our review of the aforementioned correspondence, we have noted that the blade sweep area of the proposed E82 turbines, is less than that of the E92 which was previously proposed. Based on this changed, MNR does not have any concerns, and furthermore does not require the preparation or completion of an addendum to the Natural Heritage Assessment and Environmental Impact Study reports, which were originally confirmed by our office on October 1, 2012.

In accordance with section 12(1) of the Renewable Energy Approvals Regulation, this letter must be included as part of your application submitted to MOE for a Renewable Energy Approval.

If you wish to discuss any part of this correspondence in more detail, please feel free to contact me directly at (705) 755-3134.

Sincerely,

A handwritten signature in blue ink, appearing to read "Eric R. Prevost", written over a horizontal line.

Eric R. Prevost
