

# Call for Golden South CLC Members

## Project Overview

Golden South Wind LP (GSWLP), a wholly-owned subsidiary of Potentia Renewables Inc. (PRI), will be forming a Community Liaison Committee (CLC) for the Golden South Wind Energy Project (GSWEP) in Assiniboia. The GSWEP is a 200-megawatt (MW) wind power electrical generation project on privately owned land located south and east of the town of Assiniboia. Construction is expected to begin in the fall of 2019.

## How to Participate

The CLC is expected to consist of up to 5 community members and several GSWLP representatives. Community members will be selected to represent a cross-section of the community with the aim of providing a balanced perspective on the GSWEP.

CLC members will be responsible for attending six (6) meetings over a three-year period. GSWLP anticipates hosting the first CLC meeting in late summer of 2019. Each CLC meeting will be open to the public for viewing.

GSWLP is seeking members to join the CLC and individuals from the following groups are invited to apply:

- Local residents, occupants and landowners
- Local business or industry representatives
- Local social or environmental groups
- Other interested parties

**If you're interested in becoming a CLC member, please email us the following information: name, contact information (including address), your involvement in the GSWEP to date, any organization/group you represent, your interests/concerns associated with this project, and why you want to be a CLC member.**

## Purpose of the CLC

The CLC will provide a platform for community members to interact in person with GSWEP representatives prior to, during and post construction. The CLC will also provide an ongoing opportunity for two-way communication and information sharing between the Project developer and the community. It will assist in the identification and resolution of community issues, questions or concerns related to the construction, installation, use, operation, maintenance and retirement of the GSWEP. A third-party facilitator has been retained to coordinate and chair the CLC.

**CLC application submission deadline is July 29, 2019. Submit your application to:**
